much for the other companies he has toured.

SYDNEY RESCUE WORK SOCIETY.—Miss McNichol of the Sydney Rescue Work Society, reports having collected the sum of £9 3s 8d in Narandera during the week and desires to return her grateful thanks to all those who so kindly responded to her appeal. Miss McNichol is a daughter of the late Rev. A. McNichol, of Moonee Ponds, and a niece of the late Dr. Hamilton, of Fitzroy, Melbourne. It says a good deal for her earnestness in her work when she undertakes to bear the rebuff which a charity collector experiences in public assemblages for the sake of helping in the work of the Society. Miss McNichol was the guest of Mr. Annand while in Narandera.

ACETYLENE GAS.—Mr. T. Lincoln, local agent for the Acetylene Gas Co., is keeping this new illuminant before the public, who were afforded an opportunity of judging its power and convenience last week on the show ground and at the performance of "Plaisance."
